

Job title: Lecturer in Computing & IT

Location: Kathmandu, Nepal

Employment Type: Full-Time

About Softwarica College:

Softwarica College of IT and E-commerce is one of the leading educational institutions in Nepal, working in academic partnership with Coventry University, UK. We are passionate about delivering world-class IT education and nurturing the next generation of tech innovators, data scientists and software engineers. Our campus is a hub of hands-on learning, research and industry collaboration.

Role Overview:

We are looking for a passionate and knowledgeable Lecturer to join our IT faculty. The successful candidate will have a sound knowledge of modern computing frameworks (e.g. Data Science, AI or Full-Stack Development) and a genuine interest in mentoring undergraduate and postgraduate students.

Responsibilities:

- Deliver engaging lectures, tutorials and practical lab sessions as per Coventry University curriculum.
- Develop and revise the module materials, assignments and assessments to meet the current industry standards.
- One to one academic support and supervision of final year students' projects.
- Participate in regular academic research and technical seminars conducted by the college.
- Work with industry partners to arrange guest lectures, workshops and internship opportunities for students.

Requirements include:

- Master's degree (MSc or equivalent) in Computer Science, Data Science, Information Technology or a closely related field.
- Previous teaching or academic mentoring experience at the university level is highly desirable.
- Strong working knowledge of modern programming languages (e.g. Python, JavaScript) and development frameworks.
- Superb communication, presentation and interpersonal skills.
- All instruction is in English, so a high IELTS score (6.5 or above) or equivalent proficiency in English;

Benefits & Perks:

- Competitive salary and annual performance appraisals
- Dashain allowance (festival bonus)
- Provident Fund (PF) and Gratuity benefits.
- Subsidized courses and certifications for professional development.
- Modern labs, research grants and a lively academic community.
